

HB 5212

HB 5212 - Donald Eumenidi

My name is Don Eumenidi and I live in Somers, CT and I have been a pharmacist for the past 48 years. I have had the honor work as a pharmacist for a specialty homecare pharmacy serving exclusively individuals with bleeding disorder, here in CT, for the past 20 years. I love what I do and I love working with this community.

I would like to urge you to support House Bill 5212 to ensure people with bleeding disorders have access to what they need to live healthy lives.

I am here today to read some testimony from a member of our community who could not be here today. His testimony is a prime example of why this bill is important.
